School Fair Notes.

Unusual interest in the 1915 school fair under the auspices of Shepherd College on November 5th and 6th indicates the largest and most representative display of farm and garden products ever made in Shepherdstown. A visit to the several schools on the edge of Shepherdstown district this week by representatives of the faculty increased interest in the movement, and several pledges were made by

additional schools for the best display possible from their individual districts. An additional feature of this year's fair which ought to arouse the schools and the parents to greater activity is what might be called "stunt night" on Thurs-Charles Pry, a well-known resident of day night, November 4th, in the college auditorum. Each school has been asked to prepare some feature of the programme for the night in addition to some short addresses by distinguished visitors and home folks. An exciting train robbery occurred last Thursday night on the Baltimore and Ohio Railroad at Central, W. The train had stopped at Central, an exceedingly lonely place, to take masked robbers climbed over the tender into the engine, and with pistols overawed the engineer and fireman. They compelled them to cut loose the mail car from the balance of the train, and then, putting the train men off, they ran the engine and mail car about five miles further on They then proceeded to rob the mail of such valuables as they fancied, including a large sum of money. First reports said that they had gotten \$500,000. but this is an exaggeration. It is a fact, though, that there was \$57,900 in new probably took all of this. When the robbers had finished they drew the fire from the engine and disappeared, and nothing has since been heard of them, though have been hunting for them.
